"If our generation happens to be too weak to establish Socialism over the earth, we will hand the spotless banner down to our children. The struggle which is in the offing transcends by far the importance of individuals, factions and parties. It is the struggle for the future of all mankind. It will be severe, it will be lengthy. Whoever seeks physical comfort and spiritual calm let him step aside. In time of reaction it is more convenient to lean on the bureaucracy than on the truth. But all those for whom the word 'Socialism' is not a hollow sound but the content of their moral life - forward! Neither threats nor persecutions nor violations can stop us! Be it even over our bleaching bones the future will triumph! We

will blaze the trail for it. It will conquer! Under all the severe blows of fate, I shall be happy as in the best days of my youth; because, my friends, the highest human happiness is not the exploitation of the present but the preparation of the future." -- Leon Trotsky

Food Insurance

Some analysts argue that skyrocketing food prices caused first the revolution in Tunisia and now the Egyptian uprising. As the drama has unfolded in Egypt, oil prices - calculated in dollars - have mushroomed to a two-year high. And this may be just the beginning. As MarketWatch wrote recently: "Prices will likely continue to climb higher as long as the unrest in Egypt continues to dominate the headlines." And when oil goes up, so does everything else! At the same time consumers are left with **LESS disposable income. (Less flying and trips to the airport)** Retail sales fall. The economy falters. Now imagine if gas prices keep escalating from \$3.00 to \$3.50, \$4.00, or even over \$9.00. Yes it's \$9 in Europe now. The Wall Street Journal reported just recently that steel prices have shot up

by as much at 30% . . . since November! Everyday products such as sugar, bread, and eggs are reaching all-time highs! For most people, the unfolding of these events could prove shocking. However, it's not that we enjoy being the bearers of bad news, but our belief is that, *"It's better to be prepared than scared."*
